

B2B 4 Energy

International day for bilateral business meetings in the field of power engineering during the specialized exhibition ExpoEnergy 2010

Dear colleagues,

[Enterprise Europe Network](#) – Bulgaria would like to invite you to participate in a business and technology cooperation event with pre-arranged B2B meetings with foreign partners in the field of power engineering, renewable energy sources, energy efficiency, heating, ventilation and air conditioning, gas installations, electrical engineering. The event will take place within the frame of the [specialized international exhibition ExpoEnergy 2010](#) in Inter Expo Center, Sofia, 13-16 April 2010. All companies, exhibitors and science organizations are welcome to attend.

Why to participate:

Participants will have the opportunity to present their new technologies to potential clients/partners, to establish business contacts and cooperation (marketing, distribution, joint ventures) and to obtain general information about power engineering and relevant projects.

Who can participate:

B2B 4 Energy is targeted towards producers, distributors, research organizations, universities.

How to participate:

1. Register at the [website](#) or fill in and send the attached registration form;
2. Describe in the form the technology/product/know-how and the cooperation type you are looking for;
3. Check the [online catalog](#) with all participants and select the profiles you find interesting in order to meet with the desired companies.

Note: Working language during all meetings will be English.

Deadlines:

- registration: 15.03.2010
- meeting selection in the online catalogue: 26.03.2010
- sending individual meeting schedules to all participants: 02.04.2010
